## Introducing Me!

Maggie is an award winning **writer**, mischievous and intelligent animated baby. Maggie is impressionable and easily influenced by what she sees around her. Maggie is particularly interested in **music** (being called the "voice of her generation"), **film maker** and testing her mental and physical agility.

Margaret "Maggie" Simpson is a fictional character in the animated television series The Simpsons Maggie is the youngest child of Homer and Marge, and sister to Bart and Lisa. She is often seen sucking on her red pacifier and, when she walks, she trips over her clothing and falls on her face. Being an infant, she has not yet learned how to talk but makes a characteristic sucking noise with her pacifier, which has become synonymous with the character.
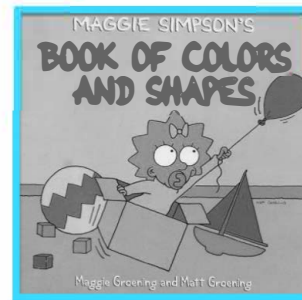

Education

B. Website Design
WESTERN SYDNEY UNIVERSITY

Maggie is studying visual communication specialising in **photography** and **website** design. Units of study and interest include:

- Photography — with a focus on image making through photographic and illustrative methods, techniques and mediums.
  Website Design — covered the skills and design understandings appropriate to using major web and time-based design technologies such as HTML, CSS and Bootstrap 4.

Skills and abilities

According to Simpsons Fandom Maggie has the following skills:

- Maggie is brilliant and musically inclined — Maggie can play the saxophone and guitar with great ability, despite the fact that she is only a year old.
- Maggie is a fantastic **singer** — Maggie becomes a future famous rock star and is the lead singer in her band, is referred to as "the voice of her generation".
- Maggie is **highly organised** and has demonstrated that her agility — both mental and physical — is extremely advanced for her age.
- Maggie usually has a good understanding of her circumstances and surroundings. Maggie knows how to read and uses baby blocks to **communicate** to adults.
